DETAILED ACTION

Election/Restriction

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-7 and 15-16, drawn to methods of synthesizing a repertoire of oligonucleotide tags of a predetermined length via a cleavage, ligation and amplification reaction and vector constructs, classifiable in class 435, subclass 91.2 and 320.1.
 - II. Claims 8-14, drawn to oligonucleotide tags, classifiable in class 536, subclasses 23.1, 24.3, 24.33, 24.5.
2. The inventions are distinct, each from the other because of the following reasons:

Inventions I and II are related as process of making and product made. The inventions are distinct if either or both of the following can be shown: (1) that the process as claimed can be used to make other and materially different product or (2) that the product as claimed can be made by another and materially different process (MPEP § 806.05(f)). In the instant case all combinations of the sequence of the oligonucleotide tags of 3-14 bases claimed in Group II could be made by an oligonucleotide synthesizer instead of an amplification reaction as in the methods of Group I.

Art Unit: 1635

3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their divergent classification and recognized divergent subject matter, and the search required for each of Group I or II is not required for the other Groups, restriction for examination purposes as indicated is proper.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

4. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
